

Subject: Are you ready for some PAWSome news?

Dear [Resident],

We are excited to announce that (property name) is working towards being one of the pet-friendliest communities in our area. We have partnered with a company named PetScreening, to register all our 'Fur Baby Residents'. This digital service will help our community to ensure that everyone will be responsible, not only for their animal's well-being, but accountable for their behavior when living and playing among all our residents.

Action Required

- If you are a **current resident**, you will be asked to complete a PetScreening profile when you renew your lease.
- If you are a **prospective resident**, you will be asked to complete a profile when you apply.
- PetScreening has three profile types for residents and applicants, to choose from:
 1. **Household Pet**
 2. **Assistance Animal** (for those with service or emotional support animals)
 3. **No-Pet/Animal** (for those who don't own any pets or assistance animals)

Why you will want a PetScreening profile

- FREE "Lost Pet" Alerts - FidoTabbyAlert.com is the first ever Amber Alert for dogs and cats. When you register with FidoTabbyAlert, you'll receive a **free pet tag**, and have peace of mind that if your pet ever gets lost, their tag can help get them back home!
- You will have mobile access to all your animal's health and vaccination records! This is a lifesaver especially when you travel, or in case of emergency.
- Access to lots of pet discounts!

If you have any questions about PetScreening, please feel free to contact us at [insert phone number or email].

Thank you for being a valued resident of our community,
Your (property name) Team
