

Simplify resident onboarding with PetScreening and Moved

Providing multifamily residents a streamlined dashboard to gather personal and pet details, manage renters insurance, and schedule key pickups and move-in dates—all in one place.

KEY BENEFITS

Enhanced Efficiency

Automate pet-related tasks via the Moved resident onboarding flow, reducing the administrative burden on on-site teams.

Reduce Liability

Ensure thorough pet and assistance animal management with PetScreening in Moved's onboarding platform, effectively reducing potential risks.

Regulatory Compliance

Ensure adherence to FHAct/HUD guidelines with PetScreening's consistent reviews of assistance animal accommodation requests.

Increase Pet Revenue

FIDO Score™ assigns risk levels to pets, similar to credit scores, allowing property managers to adjust deposits and fees based on associated risk.

Go live with PetScreening in under 2 weeks!

Once you have spent 15–20 minutes to fill out your [online setup sheet](#), expect your property to go live in less than 2 weeks.

Please provide details about your animal

Your property keeps this information on file to help identify your animal

Breed: Labradoodle

Age (Years): 5 Months: 2

Weight (lbs): 35

Color: White

THE PETSCREENING & MOVED 2-WAY INTEGRATION

PetScreening
fits seamlessly into
your existing
Moved pipeline!

How does the PetScreening x Moved Integration work?

New Task Tile

A new task tile available in Moved informs residents of their responsibilities with respect to your community's pet policies

Start Screening

From Moved, residents are prompted to start the PetScreening process and are deep linked to their PetScreening profile

Update Profile Status

PetScreening regularly syncs with Moved to update the resident PetScreening profile status in Moved

What data does Moved receive?

- Profile Type, Status, and URL
- FIDO Score for Pet Profiles

What data does PetScreening receive?

- Resident Name
- Resident Email Address
