PetScreening® | **entrata**

A quick guide to setting up your integration

1. **Contact your Entrata administrator** and/or Entrata account manager and please connect them with the PetScreening team to review the following steps (if needed).

2. **Create & Send PetScreening your Entrata credentials.** Here's an example of what PetScreening will need from you.

(The Entrata login URL)

Corp Id	\<base-url\>.entrata.com
User Name	Preformated username
Password	create-a-password

3. **Set Read/Write permissions** - Ensure PetScreening has access to the following endpoints with the corresponding access.

End Points	Access
getLeasePickList	Read access
getProperties	Read access
getMitsPropertyUnits, getPropertyUnits	Read access
getMitsLeases, getLeases	Read access
getLeads	Read access
sendLeaseActivities	Write access

PetScreening | entrata
