

Simplify Pet Management with PetScreening and OwnerRez

OwnerRez offers property management users access to PetScreening's platform, allowing them to manage their business from a single hub.

KEY BENEFITS

Increase Pet Revenue

Tap into the high demand of pet-friendly vacation rentals to optimize booking rates, maximizing revenue potential.

Reduce Unauthorized Pets

Guests legally affirm they understand and will abide by pet policies set by vacation rental owners.

Stop Fake ESAs

PetScreening's in-house assistance animal review team reviews each request and authenticates documentation with the healthcare provider.

Reduce Liability Risk

Seamless access to pet data supports informed decision-making, promoting a harmonious living environment for both guests and pets.

Automate Guest Notifications

Set up automated guest notifications and reminders to send guests their PetScreening Guest URL automatically.

Integrating PetScreening and OwnerRez is Easy

If you're already managing vacation properties with PetScreening, just log in to your account and activate the integration in your settings. Not a user yet? Begin your journey by requesting a demo!

THE PETSCREENING & OWNERREZ INTEGRATION

PetScreening fits seamlessly into your existing OwnerRez pipeline!

How does the PetScreening Integration work?

Step 1

Host gets a PetScreening account, customizes pet policies, and adds PetScreening to their booking process.

Step 2

When Guests book, they receive a custom link to submit pet (or assistance animal) information through a simple, free application.

Step 3

PetScreening checks pet info against Host's pet policies, and shares results with Host and Guest.

What data does OwnerRez receive?

- Unique Guest URLs
- Status Tags

What data does PetScreening receive?

- Property and Booking Data
- OwnerRez User Information
