

Simplify Pet Management Seamlessly.

Automatically sync PetScreening profiles directly into your Yardi property management system, eliminating manual effort from leasing teams.

PETSCREENING + YARDI INTEGRATION*

Please visit Yardi's Interface Setup Guides on [Client Central](#) for screenshots and documentation to review and/or download.

What You Can Do with PetScreening + Yardi:

Increase Compliance

Review assistance animal accommodation requests according to HUD guidelines.

Verified Pet Profiles

Ensure every pet on your property is properly screened and documented.

Save Time, Reduce Risk

Reduce administrative workload with streamlined data entry.

Consistent Records

Keep your Yardi system updated with accurate, up-to-date pet data.

Why Choose PetScreening...

- **Stop fake ESA's** with our in-house team that authenticates documentation with the healthcare provider.
- Improve compliance tracking and **reduce risk** of unauthorized pets.
- **Boost revenue** with data-driven, risk-based pricing for pet fees.
- **Access the only national database** of pet and animal related incidents in rental housing.

“We implemented PetScreening recently and have been enjoying the product immensely. It is a product long overdue and will take the “headache” out of the screening process, especially when dealing with animals.”

– Dedra C., **Broker-Owner**

Ready to enable the integration?
